

Goals, Objectives, and Metrics

Green = recommended metric

Yellow = recommended for data appendix

Blue = HUD 'Flagship Indicator' Metric (Recommended)

Section	Goal	Objectives	Metrics
People	Our region's residents have access to education and training opportunities to allow them to realize their full potential	<ol style="list-style-type: none"> <li>1. Reduce disparity in educational attainment rates</li> <li>2. Ensure that residents with special needs have equal access to education and training</li> <li>3. Provide access to training opportunities for life skills and a wide spectrum of careers</li> </ol>	<ul style="list-style-type: none"> <li>• Degree completion rate (high school, college) by ethnicity</li> <li>• Number of vocational certification programs/students by ethnicity</li> <li>• Number of households within x radius of higher ed. Opportunity (maybe look at affordability)</li> <li>• Expenditure per student (National Center for Education Statistics)</li> <li>• Average freshman graduation rate (by race/ethnicity)</li> <li>• Pupil/teacher ratio</li> <li>• Percent of people ages 25+ without college degree, with 2 yr degree, etc. by ethnicity</li> <li>• Percent limited English Proficiency</li> <li>• Number of workforce continuing education programs</li> <li>• Literacy rate</li> <li>• # of Head Start programs (and number of eligible versus number served)</li> <li>• Funding for public education (local/state)</li> <li>• Children enrolled in preschool (ACS, Census : used in St. Louis plan)</li> <li>• Proficiency Levels (3<sup>rd</sup>, 5<sup>th</sup>, 8<sup>th</sup>, 11<sup>th</sup> grade reading and math levels – TEA – From All Kids Alliance) by ethnicity</li> <li>• % with special needs served by educational opportunity</li> </ul>
	Our region's residents live in safe, healthy communities with	1. Encourage community planning and design that allows for shorter trips and accommodates safe pedestrian and bicyclist travel	<ul style="list-style-type: none"> <li>• VMT (daily total and per capita)</li> <li>• Total percentage of workers commuting via walking, biking, transit or rideshare</li> </ul>

<p>transportation options, including walking, biking, transit and driving</p>	<p>2. Improve the safety of all transportation systems</p> <p>3. Strengthen regional collaboration to increase transportation funding options</p> <p>4. Increase access to commute alternatives, including transit, carpools, vanpools, and telework</p>	<ul style="list-style-type: none"> <li>• # of Mixed use/TOD</li> <li>• H+T Affordability: Proportion of household income spent on housing and transportation costs</li> <li>• Frequency of transit and number of transit boardings</li> <li>• % of funding approved by TPC for ped/bike and transit projects and amount requested (unmet need)</li> <li>• #/frequency of crashes involving bike/ped</li> <li>• #/frequency of motor vehicle crashes</li> <li>• # of jurisdictions in region with a complete streets policy or # of complete streets projects</li> <li>• % LMI households within access to transit/bikeway/trail</li> <li>• % of all households within access to transit/bikeway/trail</li> <li>• # of safe routes to school programs and participating schools in the region</li> <li>• # of lane mile of roadway identified as deficient</li> <li>• # of deficient bridges</li> <li>• # of bikes on buses</li> <li>• # of people/trips participating in commute alternatives</li> <li>• # of companies participating in commute alternative programs</li> <li>• Congestion costs (TTI)</li> </ul>
<p>Our region enjoys clean and plentiful water, air, soil and food resources to sustain healthy future generations</p>	<p>1. Meet and maintain national air quality standards</p> <p>2. Continue to reduce levels of bacteria and other pollutants throughout our region’s waterways</p> <p>3. Increase capacity for local food production by promoting stewardship of prime farmland, water resources, and improved business infrastructure for local food production</p> <p>4. Encourage water conservation across agricultural, commercial and residential sectors to decrease water demand and maintain existing</p>	<ul style="list-style-type: none"> <li>• # of counties and percent of population in non-attainment area</li> <li>• # of 8-hour ozone exceedance days per year</li> <li>• Estimated tons of NOx reduced through H-GAC Air Quality programs</li> <li>• # of air industrial upsets. Toxic chemical releases to land, air, and water (toxic release inventory, US EPA. Used in St. Louis and King County)</li> <li>• # and % of stream miles for water bodies with bacteria impairments</li> <li>• # of jurisdictions adopting Bacteria Implementation Group Plan</li> <li>• # and % of stream miles that fully meet water quality standards for contact recreation</li> <li>• # and listing of TMDL implementation plans and watershed protection plans within the region</li> <li>• Acres of prime farmland and # of farms</li> </ul>

	water supplies	<ul style="list-style-type: none"> <li>• Acres of active/working agricultural land</li> <li>• Revenue from agricultural production</li> <li>• % of water demand being met or per capita water usage</li> <li>• Number of farms using organic practices (USDA – Used in St. Louis) or sustainable practices if available</li> <li>• Per capita carbon emissions (Brookings Report – Used in St. Louis)</li> </ul>
Our region’s residents are physically and mentally healthy and are able to lead healthy lifestyles	<ol style="list-style-type: none"> <li>1. Increase opportunities for residents to be physically active</li> <li>2. Increase access and availability of health services, especially in areas/populations that are currently underserved</li> <li>3. Create an emphasis on wellness focusing on lifestyle choices that will reduce health care costs</li> <li>4. Increase access of all residents to healthy, nutritious food</li> </ol>	<ul style="list-style-type: none"> <li>• Obesity rate by county for adults and children</li> <li>• # of jurisdictions with parkland dedication ordinances</li> <li>• # of uninsured</li> <li>• % of residents within x radius of hospital or trauma center or community clinic (recommend: change to % with access to primary care)</li> <li>• # of students enrolled in free lunch programs, # residents utilizing Meals on Wheels program</li> <li>• # of participants in WIC program</li> <li>• Infant mortality rate</li> <li>• Allocation of dollars for preventive health</li> <li>• Average incidence rates of preventable diseases</li> <li>• Percent of total population that reside in a low income census tract AND reside more than one mile from a supermarket/large grocery store (for rural census tracts, the distance is more than 10 miles) (expand to include all)</li> <li>• Crime level (Uniform Crime Reports – Used in St. Louis and King County) or Violence in Homes</li> <li>• UTMB Texas Health Equity Index Indicators (see list)</li> <li>• % smoking</li> </ul>
Our region provides choices for individuals and for local communities to fulfill their needs	<ol style="list-style-type: none"> <li>1. Increase public awareness of and participation in local and regional planning.</li> <li>2. Improve access to data and information to inform decision-making.</li> <li>3. Maintain a diverse range of choices in housing and neighborhoods</li> </ol>	<ul style="list-style-type: none"> <li>• # of registered voters</li> <li>• % of registered voters who turn out to vote</li> <li>• # of media outlets</li> <li>• % mix of housing types in the region</li> <li>• # of special purpose districts in the region</li> <li>• % of population living in unincorporated areas</li> <li>• Homeownership rate</li> </ul>

			<ul style="list-style-type: none"> <li>• <b>General local government debt to revenue ratio</b> (ratio of debt to local revenue – State and local government finance, Census) Used in St. Louis. Also HUD indicator.</li> </ul>

Section	Goal	Objectives	Metrics
Places	Our region coordinates infrastructure, housing, and transportation investments, creating areas of opportunity and enhancing existing neighborhoods	<ol style="list-style-type: none"> <li>1. Coordinate infrastructure and land use planning, construction and maintenance to optimize system performance and realize cost savings to taxpayers</li> <li>2. Remove barriers to development in areas with existing infrastructure networks</li> <li>3. Improve connectivity of land uses and multiple transportation modes</li> <li>5. Prioritize rehabilitation and maintenance of existing infrastructure</li> </ol>	<ul style="list-style-type: none"> <li>• % of transportation funding going to new capacity vs. existing (including rehab and maintenance) and amount requested (unmet need)</li> <li>• # of brownfield acres/sites</li> <li>• # of households within ¼ to ½ mile of transit</li> <li>• % of population living in areas with high score on H-GAC connectivity/density index</li> <li>• % of population living within major activity centers</li> </ul>
	Our region values and preserves its unique ecosystems, working landscapes, parks, open spaces, and the ecological benefits they provide	<ol style="list-style-type: none"> <li>1. Promote more efficient land use patterns</li> <li>2. Preserve, protect, and restore green infrastructure, vital ecosystems and prime agricultural land</li> <li>3. Increase public access to parks and natural areas</li> <li>4. Promote low impact development and community planning that incorporates conservation</li> </ol>	<ul style="list-style-type: none"> <li>• Net acres of agricultural and natural resource land lost annually to development per new resident</li> <li>• # of/ acres of conservation easements (and other methods of preservation)</li> <li>• Acres of high value environmental resources by category</li> <li>• # of new parks</li> <li>• % of residents within x radius of a trail or a park</li> <li>• Acres of state and national parks lands and visitation rates</li> <li>• Parks acreage per capita by geography and park type</li> <li>• Percent of population that reside within 1 mile of a park or open space for rural or ½ mile for urban space</li> <li>• Acres of impervious surface (land cover data)</li> </ul>
	Our region’s communities have a range of quality housing	<ol style="list-style-type: none"> <li>1. Increase the supply of affordable housing units in areas with good pedestrian infrastructure and access to transit and public services.</li> </ol>	<ul style="list-style-type: none"> <li>• Average housing cost compared to median family income</li> <li>• Percentage of renter units and owner units affordable to households earning 80% of HUD area median family income</li> </ul>

<p>choices that meet the diverse needs and preferences of all residents</p>	<p>2. Increase the accessibility of safe, healthy, energy efficient, housing units to residents throughout the region.</p> <p>3. Provide housing mix that provides choices for residents of all ages.</p>	<ul style="list-style-type: none"> <li>• # of homeless</li> <li>• Units available to LMI based on type of housing</li> <li>• H+T Affordability: Proportion of household income spent on housing and transportation costs</li> <li>• # of % of people living in sub-standard housing</li> <li>• # of rehabilitated units</li> <li>• # of age-restricted or assisted units compared to population</li> <li>• % of single-family and multi-family housing</li> <li>• # of people served by public housing authorities, # of people on waiting lists</li> <li>• Monthly home ownership costs</li> <li>• Monthly rental housing costs</li> <li>• Average cost of newly constructed homes</li> <li>• Compare distance to transit and services of old and new homes and apartments</li> </ul>
<p>Our region efficiently uses, reuses, and conserves its natural resources by managing waste and consumption</p>	<p>1. Increase the use of green construction practices and renewable energy sources</p> <p>2. Create infrastructure and policies to increase re-use of recyclable waste products and water</p>	<ul style="list-style-type: none"> <li>• % of municipal energy use that if from renewable sources</li> <li>• # of LEED certified projects</li> <li>• Number/% of homes with access to curbside recycling</li> <li>• Regional Recycling rate (H-GAC to have by end of year)</li> <li>• % of residents within x radius of recycling center, # of recycling centers</li> <li>• # of tons of waste sent to landfills in the region/capita</li> <li>• Total regional energy usage or energy use/capita</li> <li>• Greenhouse gas inventory?</li> <li>• Amount of water obtained from re-use projects</li> </ul>
<p>Our region's communities are strengthened by strong social ties, local gathering places, and residents who participate in social, civic, service, and faith</p>	<p>1. Create new and enhance existing community gathering places and institutions</p> <p>2. Maximize the accessibility and diversity of community facilities</p>	<ul style="list-style-type: none"> <li>• Dollars of charitable donations</li> <li>• # of charitable/non-profit organizations by type</li> <li>• Volunteer rate (Volunteering in America – Used in St. Louis)</li> </ul>
